

ABOUT DEROYAL

With an ever-expanding customer base, DeRoyal has built one of the most vertically integrated companies in the medical business. Every business unit of DeRoyal shares the same dedication to customer service. We firmly believe that service levels must always exceed expectations so that you, our customers, can concentrate on the very important business of caring for patients.

We currently offer over 25,000 different healthcare products in our major categories.

OUR PRODUCTS

ORTHOPEDIC

DeRoyal's orthopedic product line offers a diverse range of care solutions. From the ER to the physician to the home, DeRoyal has you covered.

PATIENT CARE

At DeRoyal, patient care means putting the best possible tools in your hands, allowing you to give the best possible care to your patients.

SURGICAL

DeRoyal's surgical product line contains hundreds of items for any type of acute care setting and is designed to provide both quality and cost effectiveness.

CONTINUUM®

Inventory and Charge Capture System

OUR SOLUTIONS

At DeRoyal, we feel it is important to stay focused on new tools and technologies that we can develop for the healthcare industry. From inventory control to sterilization, our services offer an overall mission of helping the healthcare industry provide high-quality care with innovative solutions.

OUR SOLUTIONS

SECURE YOUR INVENTORY FROM THEFT OR LOSS

Keep your inventory secure in the access controlled Continuum® Vault. The system is able to track and monitor products from stocking to dispensing, while ensuring compliance.

TRACK AVAILABLE STOCK AND SEND RE-ORDERS

Use the inventory re-order setup to monitor par levels and automatically re-order products, allowing for maintenance of proper inventory levels as inventory is removed and assigned to patients.

SAVE MONEY BY OFF-LOADING COSTS

The Continuum® system interfaces with your facilities existing IT system, allowing the patient to sign an electronic proof of delivery for items, ensuring that the charge is captured.
